**Department Details**

**Introduction:**

Government Medical College, Chandrapur is the first Medical College in Chandrapur District. It was founded in 2015. From 01 Sept 2015 first year MBBS batch has been started. The 300 bedded Hospital serves the patients from Rural and Urban area of Chandrapur District and also of the adjoining districts like Gadchiroli as well.

The intake capacity for MBBS admissions is 100 per year. Mode of admission for Undergraduate courses is through State level Common Entrance test (MHTCET/PGMCET) and All India level common entrance test (NEET). Maharashtra University of Health sciences, Nashik is the affiliating University. The institution is headed by the Dean, Dr.S.S.More.

**Vision:**

Government Medical College, Chandrapur seeks to be a model for health systems in Maharashtra through excellence and innovations in quality medical education, health care services & research. Also seeks to produce Quality Medical graduates who are competent to undertake the responsibilities as a medical professional of first contact who are competent by knowledge, skills & attitude to cater to the preventive, curative and rehabilitative needs of the patients and people at large.

**Mission:**

We are committed to translating the vision into action by:

- Imparting affordable, Inclusive quality health care to all.
- Catering to the physical, emotional & spiritual needs of the patients.
- Challenging our students to become forward looking dedicated health care personnel, with competence, integrity and compassion as their hallmarks.
- Instilling in the staff and students value for the life at every stage of its growth and in all its manifestations.
- Inspiring the students to reach out to the poor patients, especially those in the rural areas.
- To develop compassionate, ethically sound health professionals & provide services of the highest order across the health care continuum though:
  - Innovation in education that yield lifelong learners & leaders in Health care.
  - Original research in basic medical sciences and patient oriented discoveries that will benefit humanity.
  - Clinical transformation across the organization that is patient oriented, safe, effective, accountable & transparent.
- Emphasis on quality and values in all endeavors.
Functions and Objectives:
Government Medical college is dedicated to impart quality education to the medical graduate students, to carry out innovative medical research and provide quality health care for the patients through its various speciality departments. This institute is effectively implementing all the National programmes & social awareness programmes. For the smooth functioning of the administration several important committees are formed like:
